MEMORANDUM

TO: DNR Staff, for dissemination

FROM: Rebecca Goodman, Secretary, Energy and Environment Cabinet

DATE: May 4, 2020

Re: COVID-19, State of Emergency, Extension of Miner Training Deadlines

As a result of the current COVID-19 emergency and under the authority delegated to me pursuant to KRS Chapter 39A and the Governor's Executive Orders, including Executive Orders 2020-243 and 2020-257, having been duly advised by the staff of the Department for Natural Resources and Division of Mine Safety, I am implementing the following provisions in order to accommodate life sustaining services during the emergency.

The Kentucky Division of Mine Safety has postponed upcoming miner training programs, an action which could impact the ability of Surface Miners, Underground Miners, Mine Foremen, and Mine Emergency Technicians to obtain the required annual, hourly training. Therefore, I am directing the following:

- The effective date of training for all surface and underground miners whose annual training record would expire on or after March 1, 2020 and before August 1, 2020, shall be and is hereby extended for a period of 120 days subsequent to the current date of expiration for the purpose of generally continuing training obligations by four months;
- All Mine Emergency Technician certifications set to expire on or after March 1, 2020 and before August 1, 2020, shall be and are hereby extended for a period of 120 days subsequent to the certification's current expiration date.

Sincerely,

A handwritten signature in black ink that reads "Rebecca W. Goodman".

Rebecca W. Goodman  
Secretary

# Training Plan

## DMS Training Procedures

### Materials Needed

- Gloves
- Disinfectant Spray
- Masks
- Hand Sanitizer
- Disinfectant Wipes
- Infrared Thermometer

### Training Room Preparation And Use

- Before each use of the training room, tables will be disinfected for the safety of the employees/visitors.
- During use of the training room the tables will be disinfected on a regular basis.
- There will be assigned seating at least six feet apart.

### Sign-In Procedure

- All visitors must pre-register or make an appointment before entering the state office building.
- Visitors will be instructed on what entrance to report to when arriving at the state office building.
- DMS will instruct the visitor on what time they will be allowed to enter the building.
- Each visitor will be asked to bring their own mask/face covering. DMS will provide a disposable mask if needed.
- Upon entering the state office, building masks/face covering shall be worn by employees and should be worn by visitors. While wearing of masks is not mandatory after the participant reaches their station, continuation of wearing of the mask will be strongly encouraged.
- Temperature checks for each participant will be mandatory. Each participant will be given an infrared thermometer and allowed to take their own temperature. The thermometer will be cleaned by EEC staff after each use.

### In House Training or Testing Procedures

- If possible, all training rooms will be reserved for the maximum amount of social distancing.
- Tables and chairs will be arranged in order to set up the room in a manner that allows for social distancing.
- At the beginning of testing or classroom work, the DMS employee will discuss the rules required to help stop the spread of the Covid-19 while in the state office building.
- Employees/visitors will wear a face mask or face coverings for any interactions between co-workers/visitor while in common travel areas of the building (e.g., hallways, conference rooms, restrooms, entries and exits).
- Visitors will not be allowed to congregate in common areas or hallways.
- Classroom times will be staggered along with breaks and lunch in order to aid in the reduction of visitors in hallways and near entrances and exits of the state building.
- All required paper work will be placed in a designated box and processed at a later time.

### Clean Up Procedure

- At the end of each day all areas exposed to employees/visitors will be disinfected.
- At the end of the day all equipment used will be disinfected.
